

# See more and save more when you're in control.

Struggling with a lack of transparency with your current MSP or VMS? Frustrated by a lack of control over your contingent labor spend?

Nursesmart lets you view all your staffing together on a single platform – both physicians and nurses – so you can own the staffing process and succeed in cost containment.

## Manage with confidence.

Gain more control by better managing your costs. You'll also be able to make more informed decisions and choose who's providing your patient care – instead of your MSP choosing.

## Better business intelligence.

Get easy access to dashboards, reports, and the latest data. Our user-friendly VMS delivers travel nurse spend insights and end-to-end transparency.

## Efficiency all around.

Let's lighten things up by eliminating unnecessary emails and calls, refining processes, and taking burdens off your recruitment team.

SAY HELLO TO A SMARTER NURSE VMS.

# Add trusted staffing experience to your team.

We've spent 15-plus years refining our industry-leading physician VMS, Locumsmart. Now we're extending all our technology and expertise to the nurse staffing market with Nursesmart.

With this proven track record, our experts can look further and develop unique technology solutions for your specific staffing needs.

## Focused on you and ready for tomorrow.

You'll always be our priority. We'll provide one-on-one assistance and 24/7/365 chat support. And as a vendor-neutral solution, we'll partner with each vendor to deliver the best results for your organization – now and in the future.

## LET'S TEAM UP!

Please feel free to contact us with any questions or requests.
